COLLECTIVE DIDACTIC EXPERIENCE

" Entering, Being, and Belonging in the Embrace"

During the gathering, our three pairs of maestros come together to share two special didactic modules Collective Didactic Experiences. These are not merely traditional classes, but spaces for encounter, experience, and integration, designed to explore tango through different perspectives in dialogue with one another.

Wednesday

KICK-OFF WORKSHOP

A space to prepare the body, fine-tune our listening, and establish a common language between participants and maestros. An invitation to enter the festival through the embrace, contact, and shared experience.

Ideal for:

- Connecting through dance
- Breaking the ice
- Setting the foundation for the gathering.

Sunday

WRAP-UP WORKSHOP

A space to integrate what has been lived, let experiences settle, and return to the essence of the dance.

An invitation to remain in the embrace with greater clarity, depth, and presence.

A conscious and human closing to ensure you carry the experience within you.

NATALIA & ISMAEL

Together, they have cultivated a vision of tango as a practice of mindful connection, mutual presence, and honest, fluid communication.

In their work, the embrace transforms into a living space where connection and creativity meet, **inviting each couple to discover their own unique “we”**, integrating from simple and traditional tango to modern, complex, and fantasy styles.

Our tango carries the elegance of tradition and the spirit of evolution. It is refined, rooted in technique, yet alive, vibrant, **always finding new ways to express itself.** A dance that honors where we come from and dreams of where we are going.
